Figures are sorted by total in 2017. Figures are rounded to the nearest multiple of 5. Figures include applications from EU citizens. "0" means data not yet available. The last column in the uppermost table is based on yearly data from Eurostat. Because of the aforementioned rounding to multiples of 5 there are small differences with the monthly data.

In 2017 Germany registered the highest number of applications, followed by Italy and France. Figures for January and February 2018 are not yet available for all EU countries. Syria, Iraq and Afghanistan are the most important countries of origin in the influx of first asylum applications in the EU.

Special Theme: First Asylum Applications in Europe (2nd half of 2017) related to country Area, Population and GDP

Source: EUROSTAT, situation by March 7th

Introduction

Biannually the influx of asylum seekers in Europe is related to three indicators of country size: Area, Population and GDP. This way, it's easier to compare the asylum influx between small, medium, and large countries.

Table 1: Number of first asylum applications compared to country area, population and GDP in the 2nd half of 2017

	Rank	Country of asylum	Number of Applications	% share in EU	Country area (sq km)	% share in EU	Inhabitants (million)	% share in EU	GDP	% share in EU

Table 1 shows the number of first asylum applications, country area size, inhabitants and GDP per country. The table is arranged by the number of asylum applications in decreasing order. In the last six months of 2017 Germany received the highest number of first asylum applications in the EU, followed by Italy and France. The Netherlands ranked 9th within the EU.

It is clear from table 1 that there are substantial differences in ranking when one takes into account the respective country area, inhabitants and GDP of the European countries. In the next subsection, these differences will be related to the number of asylum applications in more detail.

Table 2 relates the number of first asylum applications to the area size of the European countries and is arranged in decreasing order. By indexing the Total EU-28 figure as 1, it shows how many times more or less applications a country received relative to the EU average.

The largest number of asylum applications in Europe in relation to its area size is Malta (2.603 per 1.000 sq km) which receives 36,7 times more applicants than the EU average (72 per 1.000 sq km). Luxembourg and Germany ranked second and third at some distance with 6,1 and 3,8 times more applications than the EU average. The Netherlands ranked 6th in the EU with 3,1 times the EU average.

Table 3 provides an overview of the number of first asylum applications in relation to population size.

Greece received the most applications in the EU in relation to its population size: 2,779 applications per million inhabitants, 4,5 times the EU average (619 applications per million inhabitants). Luxembourg and Malta ranked second and third (3,1 and 2,9 times the EU average). The Netherlands ranked 11th in the EU with 486 applications per million inhabitants.

Table 4 shows the number of first asylum applications related to GDP size in PPS arranged in decreasing order. PPS stands for Purchasing Power Standard, this is a mathematical method used to compare GDP sizes of different countries by eliminating the different price levels. Due to rounding in the calculation of the results for "TOTAL EU-28" the value can diverge somewhat from the expected (non-rounded) result.

Greece, Malta and Cyprus were the number one, two and three with respectively 5,8, 3,5 and 2,9 times the EU average. The Netherlands ranked 13th with 0,6 times the EU average.

Overview of indicators: Area, Population and GDP

Source: EUROSTAT, situation by March 7th

Table 5: Overview of all indicators of country size related to number of first asylum applications 2nd half of 2017

Rank	Country of asylum	Average	Index figure area In relation to Total EU 28 = 1	Index figure population In relation to Total EU 28 = 1	Index figure GDP In relation to Total EU 28 = 1
1	Malta	14,4	36,7	2,9	3,5
2	Greece	4,5	3,2	4,5	5,8
3	Luxembourg	3,5	6,1	3,1	1,3
4	Cyprus	2,5	2,1	2,6	2,9
5	Germany	2,4	3,8	1,9	1,5
6	Italy	1,9	2,6	1,5	1,5

Table 5 shows an overview of asylum influx by averaging (equally weighted) the three indexes from tables 2-4.

Malta received 14,4 times the EU average number of asylum applications in relation to its country size – area, population and GDP. Greece followed with 4,5 times the EU average. The Netherlands ranked 9th, receiving 1,5 times as many applications than the EU average.
